

Public Statement:

C-Corporation appreciates the thoughtful feedback shared by neighbors, golfers, and community stakeholders regarding the proposed lighting project at Waveland Golf Course.

Throughout this process, community members expressed both support for expanding opportunities at the course and concerns about potential impacts. We are grateful to everyone who took the time to share their perspectives.

After carefully considering the feedback received, the proposed limitations discussed during the process, and the range of interests involved, **C-Corporation has decided not to move forward with the proposed lighting project.** The **City of Des Moines respects this decision** and appreciates the community's engagement throughout the discussion. Together, we remain committed to ensuring Waveland Golf Course continues to serve as a valued community asset for residents and golfers alike.
